EDUCATION

California State University East Bay

Bachelor's in Computer Science

Hayward

Graduated on May 2023

- GPA: 3.8/4.0

SKILLS

Technical Skills: Java, React JS, JavaScript, Firebase, HTML, CSS, Python, Git, GitHub, RestAPI, etc.

Soft Skills: Problem Solving, Communication, Attention to detail, Collaborative, Driven, Independent, etc.

PERSONAL PROJECTS

Cave Chat

- Engineered a **real-time chat application** utilizing **React**, **Firebase**, **JavaScript**, and **SaaS**, providing users with seamless and instantaneous communication capabilities.
- Integrated **Firebase Authentication** to enable secure user registration and login, ensuring private and personalized chat experience.
- Implemented **real-time data synchronization** with **Firebase Firestore**, allowing users to see messages in real-time without needing to refresh the page.
- Developed dynamic and responsive user interface using **React components**.
- Enabled users to upload images and files while chatting utilizing integrated cloud storage solutions such as **Firestore Database** and **Firebase storage**.

Quick Notes App

- Developed a fast and user-friendly note taking application using **React**, enabling users to create, organize, and manage their notes efficiently.
- Implemented **CRUD (Create, Read, Update, Delete)** operations for notes, allowing users to smoothly add, view, edit and remove their notes.
- Implemented a dynamic **search functionality**, enabling users to quickly find specific notes by keywords.
- Utilized **React components** to build a responsive and visually appealing interface, ensuring optimal user engagement across devices.
- Integrated **local storage** to persist user notes, enabling users to access their notes even after closing or refreshing the app.

Recipe Keeper App

- Developed a robust **React-based recipe keeper application** from scratch, enabling users to manage their culinary creations effectively.
- Implemented **CRUD (Create, Read, Update, Delete)** operations for recipes, providing users with the ability to seamlessly add, view, modify, and remove recipes as needed.
- Designed an intuitive and minimalist **user interface** that focuses on simplicity and ease of use, enhancing the overall recipe keeping experience.

WORK EXPERIENCE

California State University East Bay

Student Assistant

Hayward

2023

- Evaluated and graded collaborative projects as well as individual assignments submitted by students, meticulously assessing the content and execution.
- Delivered comprehensive feedback to both the professor and students, offering insightful insights into the grading process.
- Participated and collaborated in scheduled Zoom conferences alongside esteemed colleagues and the professor, fostering productive discussions and promoting understanding and responsibility.

INTERESTS

Interests: Reading books, experimenting new recipes, working out, etc.
